RENFREW PRO™
Hockey Tape

Technical DATA

POLYFLEX ® 102R - Season Tape Pack - Pads

Renfrew Pro™ Season Tape Pack, Pads

DESCRIPTION

Our Renfrew Pro™ Season Tape Pack comes with 20 rolls of tape to outfit you or your team for the season. Choose from our Polyflex Clear Shin Pad tape or combo pack that includes a selection of Polyflex Clear Shin Pad tape and our Pro-Blade™ Cloth Tape in white and black. The cloth tapes are specially designed for today's composite hockey sticks, which incorporate an advanced adhesive formulation applied to a polyester/cotton cloth base, resulting in a more substantial cloth tape with increased wear characteristics. Our Polyflex Clear Shin Pad tape is formulated to provide sufficient elasticity and memory to hold shin pads and other sports equipment securely in place. It allows players to skate comfortably and confidently throughout their game.

APPLICATIONS

- shin pads

PRODUCT BENEFITS

- Great value for all season long or share with your team
- Available in boxes of 20 rolls – choose from 20 white or 20 black Pro-Blade Cloth Tape, 20 Clear Polyflex or combo pack with 6 white Pro Blade, 4 black Pro-Blade and 10 clear Polyfle
- Moisture resistant

RECOMMENDATIONS

Application to Surface: Unwind adhesive film or tape and apply the adhesive side to the mounting surface. Apply firm pressure. Recommended application temperature to achieve best results is 65°F (18°C) or above. Proper bonding may not occur unless adhesive and surface material are both at 65°F (18°C) or above.
NOTE: 1. When applying pressure sensitive adhesive films to any surface, be sure that the surface is free from oil or other surface contaminates such as powder, dust, or release agents. Adhesive performance should be carefully checked when used on substrates containing plasticizers.
2. Shelf life is one year from date of shipment when stored in a cool dry place below 76°F (24°C). Rolls should be stored on end.
